

CS 6320: Natural Language Processing

Instructions from the TA

Please adhere to these instructions at all times when submitting a programming assignment:

1. All assignments must be submitted via eLearning.
2. For programming assignments, you are free to use either C, C++, Java, Python or Perl.
3. It is highly recommended that you test your code on the csgrads1 server before submitting your assignment.
4. Please include a README file with your code, giving clear and precise instructions on how to run the code.
5. Submit a single zip file containing all your code and the README.

Please adhere to these instructions at all times when submitting a written assignment:

1. You may type your answers and submit a single pdf to eLearning.
2. You may write your answers, scan them and submit a scanned pdf file to eLearning.
3. You may submit a printout/handwritten copy of your answers to the Professor in class. However, it is highly recommended you submit via eLearning.

Late Submission Penalty:

1. ≤ 2 hours beyond deadline: 10%
2. 2 to 4 hours beyond deadline: 20%
3. 4 to 12 hours beyond deadline: 35%
4. 12 to 24 hours beyond deadline: 50%
5. 24 to 48 hours beyond deadline: 75%
6. ≥ 48 hours beyond deadline: 100% (No credit)
